

English Version

Who we are:

Escola Secundária D. João II started its activities in February 1983.

It is a **human** and **lively** school. It integrates **knowledges** and **lives**. A school that accepts all **challenges** and is committed to the **success** of its students.

It looks for **efficiency** and bets on **innovation**. A school that works in **harmony** with parents, as well as with all the surrounding community and establishes the necessary **partnerships** to achieve its goals.

Basically, a school faced to the **future**. A **positive** school.

1200 students from the 7th to the 12th Form attend our school. Sciences, Humanities, Arts, Sports, Tourism, Multimedia, Photography and Child Care Nursing are our offers in the secondary and professional courses.

Our city:

Our school is situated in the beautiful city of Setúbal, which has one of the most wonderful bays in the world, beaches and mountains. With 100.000 inhabitants it is a lively and charming city.

<http://www.travel-images.com/setubal.html> provides accurate information of the city.

Our Projects:

We have two (2) national projects: EPIS (Enterprisers for the Social Inclusion) an alliance of several enterprises who help students in need to improve school results) and VAI-PE (partnership program with a local NGO to help students in need of methodology and speech therapy) both designed to improve success and decrease the drop-out rate.

We also have two (2) international projects: European School Network (ESN) – micro-Erasmus for both students and teachers to have a 1, 2 week-experience in one of the 23 schools of the 8 countries involved in the project and Positive Behavior Support (PBS) – to improve success and social climate with data-based decisions.

Setúbal, 23rd September 2011

The Director

Ramiro Sousa
